

This term:

In Maths, we will be working on our number skills (place value, ordering and counting) We will also start to look at different types of lines.

In English, we will be studying the book 'Leon and the Place Between'. The children will be developing skills to write a recount, a set of instructions and part of a story.

In History, we will be following a line of enquiry to answer the following question 'If your time travel machine broke down, which age (Stone, Bronze or Iron) would you want to stay at and why?'

In Art, we will be focusing on drawing and observation skills. We will be using different medias to create different textures.

In Music, we will be developing notation skills and thinking about the question: How does music bring us closer together?

In RE, we will be studying what Christians learn from the creation story.

In Science, the children will be working to develop an understanding of 'What is light? They will investigate shadows and the size of shadows

In Computing, we will studying Computing Systems and Networks. This will include knowing devices and their parts and how devices can be connected through networks

In PSHE, we will be working on developing our relationships and friendships, and understanding rules and their purpose.

PE will be taught by Prostars and this term the focus will be Invasion games in Football and Netball

In French, we will be working on the following

- saying hello and goodbye
- introducing ourselves
- saying how we are feeling
- counting from 0-10
- saying how old we are
