

## School Vision: Together We Grow, Achieve and Celebrate

We show the value of **Courage** in our learning through the learning behaviour of

***Innovation means making good use of what I know and what I have around me.***

*To show innovation in my learning, I can:*

- Say which resources or items might support or help me in my learning.
- Select and collect resources.
- Use resources to help me with my work.
- Organise my resources.
- Know who I can ask for help (and when).

*To show innovation in my learning, I can ALSO:*

- Look back at learning in my book, on the board or around the room to help me.
- Make links and connections between ideas and experiences.
- Use different strategies and approaches.
- Make decisions & solve problems on my own.
