

School Vision: Together We Grow Achieve And Celebrate

We show our school values in our learning through the learning behaviour of

Reflection means thinking and talking about myself as a learner.

To show reflection in my learning, I can:

- Take time to look at & think about my work.
- Talk about what I am doing/have done.
- Identify what I have done well.
- Have an idea about how I can improve my work and try it out.
- Know when I need to ask for help.

To show reflection in my learning, I can ALSO:

- Know what helps me learn well.
- Ask and answer questions about my learning.
- Set myself small goals or next steps.
- Act on feedback from others about my work.
- Say which learning behaviours I am using/ have used to help me learn.
